The Australian National University (ANU) attracts staff and students of the highest calibre from around the world. That’s why we’ve been given a maximum five-star rating in the category of Internationalisation by the QS World University Rankings, and have 10 humanities, arts and social science disciplines ranked in the top 30 in the world.*

For more than half a century, ANU has also been the leading centre for research on Australia’s engagement and influence in Asia and the Pacific region and beyond.

Our global reputation

When you graduate with a degree from ANU, you’re graduating with a globally-recognised qualification backed by our remarkable international standing.

Consider the following numbers:

1. We’re ranked Australia’s number 1 university and we’re in the top 20 in the world.
2. ANU is ranked first in Australia for the study of modern languages, international relations, anthropology, archaeology, history, development studies, social policy, sociology, philosophy, English language and literature and modern languages.*
3. The number of Nobel Laureates, including our Vice-Chancellor we count among our staff and alumni.
4. The number of our subjects ranked in the world’s top 25 (including anthropology, politics, development studies and archaeology in the top 10).*
5. As a discipline, modern languages at ANU is ranked number one in Australia and 26th in the world.*
6. ANU has risen to this level of esteem in just 70 years. Since we were founded in 1946, we have developed an enviable reputation, and led the way Australia engages with and understands the region.

* According to the QS World University Rankings (2016)
The ANU College of Arts and Social Sciences and the ANU College of Asia and the Pacific are two colleges within the University, both with an international reputation for the standard of their education and engagement with the community.

Although we are distinctive in many ways, we also possess crucial similarities, broadly covering disciplines that fall into a category known as HASS – humanities, arts and social sciences. Together we offer students a complementary array of undergraduate programs.

**About the ANU College of Arts and Social Sciences**

We set national and international standards in research, education and community engagement across the humanities, creative arts, languages and social sciences.

Our unique location in Canberra creates an enriched teaching and research environment, giving our researchers and students access to the nation’s political, cultural and collecting institutions and government departments.

Our researchers shape debates and public policy through consultations, media outreach and through their research. Our disciplines rank highly against other universities globally, and most achieve rankings of above (or well above) world standard in the Excellence in Research Australia rankings by the Australian Research Council.

**About the ANU College of Asia and the Pacific**

We are home to the largest number of regional experts and specialist academic programs in the English-speaking world, and play a vital role informing public policy and Australia’s intellectual engagement with the societies, cultures and economies of Asia and the Pacific.

Our education programs provide a global perspective on the biggest issues facing society and will equip you with the skills you need to become an international citizen.

Several disciplines we teach are unique within Australia – like International Security Studies – and we also teach more than half of Australia’s less commonly learned languages, among them Thai, Hindi, Sanskrit, Vietnamese, Burmese and Tetum.

**Our location**

It’s not just about who we are, it’s about where we are. As Australia’s national university, our deep engagement with governments, diplomatic missions and international institutions means we provide you with a window from Australia out into the world.

Studying in Canberra – the centre of Australian politics and policy development – presents you with opportunities to step outside the classroom and put theory into practice. Where else could you go on an excursion to the National Archives to view formerly ‘Top Secret’ government documents, participate in a war-game simulation run by the former Chief of the Australian Defence Force, ask Australia’s former Foreign Minister about their role in the development of the UN peace plan for Cambodia or observe part of the consultation process for Australia’s next Defence White Paper?

Our national capital location provides access to major national centres of research, international organisations, over 80 diplomatic missions and premier cultural institutions such as the Australian War Memorial, Australian National Gallery, High Court of Australia, National Film and Sound Archives and the National Museum.

**Diverse workshops in the ANU School of Art, from glass to video animation, all offered within our Bachelor of Visual Arts or Bachelor of Design degrees, or in a Flexible Double Degree combination.**

**The number of Commonwealth Departments in Canberra, the centre of Australian politics and policy development. Among them are Treasury, the Department of Foreign Affairs and Trade and the Department of Defence.**

**ANU School of Music has a rich history, having been established just over half a century ago.**

**In a globalised world with a rapidly evolving job market, it’s important that students are able to choose from a range of disciplines and degree structures to suit their interests, strengths and career goals. At ANU, you can choose from 750 different combinations in our Flexible Double Degree program.**

**ANU has exclusive rights to place six interns a year in United States Congress as part of the Washington Internship Program. We are also the only university where you can intern in Australian Parliament House.**

**Our culture of ground-breaking research is supported by an average student to staff ratio of 10:1 (the best among the Group of Eight**). This allows our students to work closely with researchers who are addressing some of the biggest challenges of our time.

**The number of diplomatic missions from around the world that Canberra accommodates. They facilitate relationships between their country and the Australian Government.**

**The number of Commonwealth Departments in Canberra, the centre of Australian politics and policy development. Among them are Treasury, the Department of Foreign Affairs and Trade and the Department of Defence.**

**The number of diplomatic missions from around the world that Canberra accommodates. They facilitate relationships between their country and the Australian Government.**

**The number of diplomatic missions from around the world that Canberra accommodates. They facilitate relationships between their country and the Australian Government.**
Our students come from all over the country and the world. They're a diverse group but share important characteristics: they are adventurous, curious and creative. They are explorers of the world. For this reason, we encourage our students to broaden their horizons and gain unique experiences — some overseas, some closer to home.

We lead the University in international student mobility – 96% of our graduating cohort have taken a global study option.

Internships – at home and abroad

Gain valuable work experience, and enrich your degree while experiencing a new social and political culture. Internships are available in Australia, Asia and in Washington DC.

The Australian National Internships Program

The Australian National Internships Program (ANIP) gives you an opportunity to work at the heart of Australian policy and politics. This program arranges 13-week research-oriented internships which give you academic credit. Interns develop career and research skills while building professional networks that give an advantage in a competitive employment market — even before you graduate.

ANIP is the only program which offers Australian Commonwealth Parliamentary Internships and also offers a program at a variety of Canberra and NSW locations — most within easy reach of ANU:

- Government - including Australian Parliament, Australian Public Service, ACT Public Service;
- Non Government - including Australian Chamber of Commerce, UN Women, Conservation Council and Australian Institute of Professional Intelligence Officers;
- Think Tanks - including Centre for International Economics, Development Policy Centre and East Asian Bureau of Economics;
- Embassies - including Embassies, Delegations and High Commissions of India, Indonesia, Timor Leste and USA;

To find out more visit: anip.anu.edu.au/internships

Washington Internship - walk the corridors of power

Our Washington Internship program offers six-week placements with the United States Congress, where you can rub shoulders with some of the most powerful people in American politics. This internship offers you the opportunity to develop a strong background in American politics and the opportunity to experience political life in Washington DC. Interns work in either the office of a member of Congress or the office of a congressional committee. During internships students start a research project which they complete during their first semester back at ANU.

To find out more visit: anip.anu.edu.au/internships/washington

Taiwan – Public Policy Research internship

Our Taiwan Public Policy Internship program offers a six-week research-intensive internship with a department or agency in the Taiwanese Government (Republic of China) or private organisation. The internship program is coordinated by the Australia and New Zealand School of Government (ANZSOG) through the School of Politics and International Relations, and supported in Taiwan by the National Academy of Civil Service, Taipei.

To find out more visit: anip.anu.edu.au/node/117

Tour and study

Students across a range of our programs have the opportunity to travel as part of their degree. This could include undertaking an immersive in-country experience, spending a semester at one of our partner universities or doing an intensive language course — in-country — during one of the summer or winter breaks.

Immersive in-country experience

Trade your seat in the classroom for a village hut in the mountains of Myanmar, a teahorn in Japan, or among palm trees in Hawaii. You might visit the great archaeological sites of Italy, Greece or Turkey, live in a rice-farming village in Vietnam, or encounter endangered primates in Cambodia. All the while you’ll earn credit towards your degree. You’ll take preparatory classes at ANU beforehand, then spend four to six weeks overseas.

Lucy McFarlane

My Year in China

“My Year in China” was exceptional. The in-country language study delivered incomparable progress in my Mandarin. Beyond the classroom, traveling from the cosmopolitan cities of the east to China’s western edges was exhilarating and gave me a deeper regional understanding. I floated down the exquisite Yulong River in southern Guanshi, froze at the ice sculptures in north-eastern Harbin, drove the rocky Karakoram Highway in Xinjiang and ended up Mt Everest base camp in Tibet. The year abroad, filled with new friends, good food, and valuable work experience, enabled me to envision a life and career in China.”

Spent a semester overseas

Spend a semester at one of our partner universities located in 17 countries across the globe and get credit towards your degree. An exchange is the best way for you to experience cultural and language immersion.

In-country language courses

Travel during the summer and winter breaks with an intensive language course in Japan, Indonesia, Vietnam, Thailand or India.

Year in Asia

The Year in Asia program can take you to China, Korea, Japan, Indonesia, Thailand or Vietnam. The 12 months is added to the length of your degree, building in the ability to have a year in-country where you can truly explore your interests.

You will graduate with a Bachelor of Asia Pacific Studies (Year in Asia), a degree that formally recognises your overseas expertise.

Fieldwork

Fieldwork opportunities are available for students studying archaeology and anthropology wishing to gain in-country experience and hone their exploratory research skills.

For four weeks in the winter break you could live in Indonesia in a village homestay, learn Indonesian, work in a team with Indonesian students, learn ethnographic methods and data analysis, and help the community to apply for development assistance and complete community projects. Alternatively, you could survey the historic houses of Ribchester in the UK or, if you’d prefer to stay in Australia, you could attend an archaeological dig in Tasmania at the Tribunna Baracks.

They’re just a few of the many study tour and fieldwork opportunities available, all of them with staff instruction and for academic course credit.

Grants and scholarships

ANU Travel Grants help students participate in courses not available at ANU but offered at other leading universities around the world. These experiences also allow our students to make new friends, form networks and immerse themselves in other cultures.

A variety of scholarships can also help you get overseas during your studies. The University and both Colleges offer a range of scholarships of up to $20,000 per year.

To find out which ones might apply to you visit: students.anu.edu.au/scholarships

Garruru Indigenous Scholarships

As part of our commitment to practical reconciliation, we offer undergraduate and postgraduate scholarships to Aboriginal and Torres Strait Islander students to study at ANU College of Asia and the Pacific.

To find out more visit: asiapacific.anu.edu.au/students/scholarships/garruru-indigenous-scholarships
TOP 5 REASONS TO STUDY
A BACHELOR OF ARTS AT ANU

1 Variety
When you choose a Bachelor of Arts with ANU, you also get to choose from nearly 50 majors and more than 80 minors in disciplines ranging from history to criminology, languages to Asian studies.

2 Flexibility
Every one of our students is studying their own unique program. The Bachelor of Arts can be combined with almost any other undergraduate degree at ANU in a Flexible Double Degree. But even if you choose to take it as a standalone program, you can structure your Bachelor of Arts in seven different ways with differing combinations of majors, minors and electives to choose from.

3 Distinction
Our international academic discipline rankings are in the top 20 in the world and the number 1 in Australia.

4 Transferable skills
No matter what career path you decide to follow, the skills you will gain from an arts degree will set you up. Skills like critical thinking, research, oral and written communication, and the ability to understand and explain complex national and international issues affecting our world today.

5 Life experience
At ANU we have opportunities for you to grow as a person and in your studies – both in Canberra and abroad – allowing you to travel on exchange, complete a professional internship, or get your hands dirty and experience real research fieldwork.
TOP 5 REASONS TO STUDY ASIA AND THE PACIFIC

You want to be supported
We know learning in the classroom and beyond can be a costly matter. That’s why we support our students to make the most of opportunities through grants and scholarships. We have a variety of support options including travel grants so you can take advantage of our overseas study programs, experience cultural immersion, improve your language fluency and come back with memories to last a lifetime.

You want diverse career options
One of our defining features is that we offer flexible degrees with lots of subject variety – and this means you can shape your interests around your career goals. You will build expertise in the Asia and the Pacific region, across a variety of discipline areas. Our graduates are in demand because we encourage learning through practice. Whether it’s undertaking an Australian Government or Corporate internship or working on an overseas project, employers value our graduates for their academic rigour as well as their real-world experience.

You want proximity to opportunity
Our unique location in Canberra creates unparalleled opportunities. Being in the capital – you will have access to the nation’s political, cultural and government departments. Where else could you attend a public lecture with influencers from Asia and the Pacific region, or visit a diplomatic mission?

You want a globally recognised degree
Our disciplines rank highly against the top universities globally, and most achieve rankings of above or well above world standard in the Excellence in Research Australia rankings by the Australian Research Council.

You want to learn from leaders
As an ANU student you learn from academics who are leaders in their field and have unique links to industry. You will join a community of Asia and the Pacific regional experts and specialist academic programs.

You want to be supported
We know learning in the classroom and beyond can be a costly matter. That’s why we support our students to make the most of opportunities through grants and scholarships. We have a variety of support options including travel grants so you can take advantage of our overseas study programs, experience cultural immersion, improve your language fluency and come back with memories to last a lifetime.
YOUR STUDY, YOUR WAY

We offer a suite of programs that are unique and distinctive to give you an edge when you graduate. These include the world-renowned Flexible Double Degrees™ and our Degrees for High Achievers.

Double degrees

Flexible Double Degrees
Study two undergraduate degrees at the same time and graduate with two qualifications. Combine two degrees to pursue diverse interests – for example Bachelor of Asian Studies/Bachelor of Laws, or Bachelor of Arts/Bachelor of Languages. These programs will take you less time than studying two undergraduate degrees separately. Having two areas of expertise means you will graduate with a distinct competitive advantage.

Flexible Vertical Double Degrees
ANU has pioneered the Flexible Vertical Double Degree to give you a head start with a Master degree to gain knowledge, skills and experience that can equip you to work across a broad range of roles and organisations, anywhere in the world.

Here is a sample of what you can do in a Flexible Vertical Double Degree program to get you thinking:
> Bachelor of Music/Master of Marketing Management
> Bachelor of Art History and Curatorship/Master of Asia-Pacific Studies

Visit programsandcourses.anu.edu.au for more details.

Degrees for High Achievers

Our Colleges are places where students come to be challenged. If you want to test your academic skill, your work ethic and develop your natural talent, we have courses especially for you.

The Bachelor of Philosophy (Honours) (PhB)
This program is an innovative, research-focused undergraduate degree. It’s the only program of its kind where disciplinary knowledge is enriched by a deep regional understanding of Asia and the Pacific.

You’ll take advanced research study courses, leading to an Honours year, with the opportunity to explore your interests in a diverse range of disciplines including history, international relations, gender, culture, strategic studies, literature, politics, linguistics, anthropology, law and regulation, archaeology and economics.

You’ll even get the flexibility to structure the degree in a way that suits you (in consultation with your academic advisor).

The Bachelor of Politics, Philosophy and Economics (BPPE)
The BPPE is a well-known and well-established degree throughout the world.

In the early stages you’ll gain an equal grounding in each of the three disciplines; as you progress, you can decide which area to focus on.

Matthew Jacob
Bachelor of Politics, Philosophy and Economics, Tuckwell Scholarship recipient

“The Bachelor of Politics, Philosophy and Economics (BPPE) was one of the main reasons behind Matthew’s decision to come to ANU, as well as the scholarship and opportunity to move away from his hometown in Sydney. “I had never heard about the BPPE until a friend of mine introduced me to it, and after I did some research I realised it was exactly what I wanted,” says Matthew.

“It’s unique in the way it’s taught as three disciplines working together, which is best embodied in the seminar classes, where the disciplines are all meshed together in one synchronised way as opposed to being taught separately. It’s surprised me how much the subjects overlap and work together. The BPPE gives me the flexibility to approach problems from different aspects that you wouldn’t normally study if you were studying just economics, or just politics.”

Catherine Perry
Bachelor of Philosophy (PhB)

“From a young age, I have been fascinated by learning Asian languages. The Bachelor of Philosophy (PhB) program at ANU immediately jumped out at me, as it is the only degree of its kind in Australia that allows complete flexibility with subject choices. I was drawn to the program upon discovering that PhB students would be able to do one-on-one projects with lecturers on subjects of their choice.

I have explored projects that focus on issues from banking in China to the importance of Zen Buddhism in the way of the Samurai.

The PhB has offered me so many opportunities to extend myself, and to discover where my true interests lie. The degree has helped me confirm my aspiration to work in Asia, where I hope to combine my interests in both language and business.”

TAKE YOUR EXPERTISE TO THE WORLD

With an ANU degree, you will join the ranks of Australia’s most globally employable graduates.*

Our research-led culture, innovative approach to education and global outlook means our graduates are Australia’s most employable and in-demand.

A degree in the arts, humanities and social sciences teaches you to think critically, communicate clearly, and to work individually and in teams to solve complex problems. This means our graduates enter the workforce with a range of highly transferable, sought after skills.

$60K
undergraduate average full-time starting salary*

of full-time employed graduates are working in the public sector*

66%
of full-time employed graduates say skills and knowledge are important in their employment^*

JuE Wong
Bachelor of Arts (Honours) 1987
President of Elizabeth Arden Brands
JuE was appointed President of Elizabeth Arden Brands in August 2015. She was formerly Chief Executive Officer of StriVectin, a global skin care cosmetics company, and Astral Brands. JuE specialises in turning around ailing companies. She won a 2014 Stevie Award as a Female Executive of the Year. JuE has also served on the board of the American Heart Association and the Atlanta chapter of the YMCA.

Helen Zhang
Bachelor of Asian Studies (Specialist)
Bachelor of Laws (Hons.)
Third Secretary Department of Foreign Affairs and Trade (Political/Economic) 2010
Helen graduated in 2010 with a combined degree in Asian studies and law. She started her career in Beijing and Hong Kong with commercial law firm, King & Wood Mallesons. At ANU Helen participated in a range of extra-curricular activities including ANU Radio, Interhall Arts & Sports, the Australia-China Youth Dialogue as well as the ANU Students’ Association and the Law Students’ Society. She now works for the Department of Foreign Affairs and Trade, and has been posted to the Australian Embassy in Tel Aviv, Israel, as Third Secretary (Political/Economic).

Rianna Tatarelli
Bachelor of Asian Studies, Bachelor of Commerce
Consultant at PricewaterhouseCoopers 2014
As part of her combined degree of Asian studies and commerce, Rianna studied in Indonesia as part of the Year In Asia program. During her studies, she interned at the Australian Trade Commission in Jakarta as well as local Indonesian NGO, the Society for Health, Education, Environment and Peace. She is now working as a consultant for global accounting firm, PricewaterhouseCoopers.

Lieutenant-General (Retired)
David Morrison, AO
Bachelor of Arts, 1979
Australian of the Year, 2016
Lieutenant-General (Retired) Morrison joined the Army in 1979, after graduating from ANU with a Bachelor of Arts. He went on to serve for 36 years and was Chief of the Army for four years. During his time as Chief of the Army, and since his retirement in 2015, General Morrison has championed gender equality and diversity, and has worked to help end violence against women and children. His efforts were recognised nationally in January when he was named the 2016 Australian of the Year.

1 Entry into the Bachelor of Design and Bachelor of Visual Arts is based on an interview and viewing a portfolio of a student’s work.
2 Entry to Performance courses is by audition. Applicants wishing to enrol in Performance courses are advised to contact the School to arrange for an audition as soon as possible: email: schoolofmusic@anu.edu.au
3 Joint degree offered with the National University of Singapore (NUS).
ART HISTORY, VISUAL AND DESIGN ARTS

Turn your artistic passion into a qualification from the ANU School of Art. Through our artist-in-residence program and our strong connections to cultural institutions and prestigious international art schools, you won’t just be a student, you’ll become part of ANU and Canberra’s renowned artistic community.

Bachelor of Art History & Curatorship

If you’re considering a life immersed in the art world, in galleries and museums, then this is the degree for you.

The ANU Bachelor of Art History and Curatorship bridges the theoretical side of art history as a university discipline and the practicalities of curating for the public. The degree covers curatorship, Australian and Indigenous art, Asian art and international art.

ANU enjoys close links with the National Gallery of Australia, National Library of Australia, the Australian War Memorial and the National Portrait Gallery. These links ensure that you have good access to major national collections. For the entirety of your degree, you can combine academic excellence with a strong vocational emphasis, and remain at the forefront of current research in the art museum sector. You also gain practical experience with some of the world’s most exciting cultural institutions during your selected internship.

Bachelor of Design

Design has a vital role in shaping a fast-moving world: it’s about applied creativity, engagement and collaboration, as well as the art and craft of making.

The Bachelor of Design combines cutting-edge digital practices with internationally-renowned art and craft studio disciplines to prepare graduates who are skilled, inventive and versatile, ready to engage with the challenges and opportunities of our changing society.

The Bachelor of Design offers a flexible structure, allowing students to tailor studies to their particular interests and ambitions. Students combine design and studio based courses at the ANU School of Art: focus on designing and producing objects; specialise as an independent designer; as an art teacher; in galleries and museums, in commercial enterprise and many other fields.

Career opportunities

Graduates will take advantage of changing opportunities within the field of creative arts industries especially in the areas of professional/commercial design for production and small scale individual craft production. Graduates may find employment as an independent designer; as an art teacher; in galleries and museums, in commercial enterprise and many other fields.

Bachelor of Visual Arts

Do you want to hone your artistic abilities into a fruitful and creative career?

The ANU Bachelor of Visual Arts offers you the opportunity to learn and refine high-level technical and creative skills and knowledge for working with the forms, materials and technologies of a chosen studio discipline. This practical degree allows you to develop new ways of creating and thinking which aids in your development as an artist.

You can choose to major in animation and video, ceramics, furniture, glass, gold and silversmithing, painting, photomedia, printmedia and drawing, sculpture, and textiles.

The School of Art has specific entry requirements that include completion of an interview and portfolio. For more information visit www.soaa.anu.edu.au/how-apply

Janis Lejins

Bachelor of Visual Arts (Hons)

For his Visual Arts Honours, Janis Lejins created an artwork that comprised columns of light which changed colour based on data from computer programs he’d written. Each column represented a different stream of data — from the content of tweets, porn searches or Instagram photos. Janis explains, “It’s about the relationships we have in an increasingly networked world to this sea of intangible data which is increasingly defining who we are and how we engage with things.”

When he came to ANU art school, he says, “I thought I’d grow up and want to be a photojournalist.”

At ANU, Janis found many opportunities to work outside of his field. From becoming well-trained in classical photography in his first year, he went on to take physical computing, electives in sculpture, print media and painting. These introduced him to a world of possibilities.
CRIMINOLOGY AND SECURITY STUDIES

Bachelor of Criminology

<table>
<thead>
<tr>
<th>ATAR: 80</th>
<th>Duration: 3 years</th>
<th>CRICOS Code: 078937F</th>
</tr>
</thead>
</table>

Do you want to delve into an enthralling field that deals with the complexities of crime and responses to crime? Our program addresses the causes, politics and management of criminality from a range of disciplinary perspectives.

You will develop an understanding of a range of issues in contemporary criminology including definitions and representations of crime, victimisation, policing, the criminal justice system, transnational crime, and restorative justice.

The Bachelor of Criminology draws attention to the social dimensions of crime and assesses the effectiveness and implications of crime control measures.

Career opportunities

Graduates may find work in government, intelligence, correctional services, social work, journalism, and policymaking.

Matthew Musgrave

Bachelor of Criminology. Graduated in December 2015 and now works for ACT Corrective Services’ Throughcare Unit, a prisoner reintegration initiative.

1. I began with a double degree in Criminology and Psychology and did this purely for efficiency. One degree in three years, or two degrees in four years. The latter seemed like the way to go. However it wasn’t until I started the courses that I realised that criminology absolutely fascinated me.

2. I think I was always drawn to the sociological approach to academics, over the scientific methods utilised in psychology. I thoroughly enjoyed psychology, however as my fellow students could attest, I wasn’t very good at it, so I dropped it and stuck with crime.

3. I also had the opportunity in a number of courses to partake in tours of a police station, the ACT Magistrate’s court, the Alexander Maconochie Centre and the Goulbourn Supermax prison.

4. I surprisingly enjoyed the academic side of uni as much as the social. The biggest positive to the criminology degree over all the other courses was the calibre of the lecturers and their ability to make every course feel like it was tailored and directed to me as an individual.

5. The smaller class sizes certainly helped, I will admit, but I honestly believe that for those individuals that really made the effort, you could see the tutors and lecturers bend over backwards to make your time enjoyable.

6. “Outside of the classroom I had the privilege of creating, formalising and running the ANU Criminology Society. I was lucky enough to have an incredibly supportive team around me when we did that with a great deal of success. This led to a phenomenal opportunity with the ANU Cybercrime Observatory where a few of us were able to work with the Office of the Children’s E-Safety Commissioner on an academic online child safety report. Definitely a highlight of my time at ANU.”

Bachelor of International Security Studies

<table>
<thead>
<tr>
<th>ATAR: 90</th>
<th>Duration: 3 years</th>
<th>CRICOS Code: 082704M</th>
</tr>
</thead>
</table>

Do you see yourself shaping Australia’s foreign policy decisions? Or working with elite international organisations like the United Nations or our top spy agencies? The Bachelor of International Security Studies can help you make your dream career a reality.

When you study the Bachelor of International Security Studies you will delve deeply into the contemporary security threats facing nations, international organisations and businesses around the world – including the threat of military power, civil war, terrorism, cybercrime, environmental degradation and food security to name just a few.

Career opportunities

Recent graduates of security studies are currently working with organisations like the Attorney General’s Department, United Nations, Telstra, Boeing, the Australian Federal Police and the Department of Foreign Affairs and Trade.
Bachelor of Archaeological Practice

ATAR: 80  Duration: 3 years  CRICOS Code: 073963G

Archaeology unlocks the mysteries of humanity’s past. Archaeologists discover and excavate archaeological sites and interpret the material recovered from them. Our Bachelor of Archaeological Practice is specifically designed to prepare you for a successful career in archaeology, either as a researcher or heritage consultant.

You will be trained in methods of archaeological investigation and develop both applied and technical skills involving fieldwork and analysis. Throughout the Bachelor of Archaeological Practice you will undertake fieldwork to real excavation and archaeological sites, as well as having exciting opportunities to participate in local or international fieldwork experiences.

Bachelor of Classical Studies

ATAR: 80  Duration: 3 years  CRICOS Code: 073964F

Delve into the classical world of Greece and Rome through a variety of disciplines at Australia’s leading university. You will study broadly across the field of classical antiquity, defined as the Greco-Roman world from the Aegean Bronze Age (3rd millennium BC) to the transition from late antiquity to the early medieval period (500 AD).

Our program ensures that you gain an understanding of the whole period, plus a focus of your choosing and at least one of the classical languages (Ancient Greek or Latin). This flexible program also gives you access to other disciplines such as archaeology or art history.

You will be encouraged to take part in an overseas study course in Italy, Greece or Turkey. You will experience the classical world and visit archaeological sites and key museums, all as part of an approved course counting towards your degree.

*QS World University Rankings by Faculty 2015-16
Bachelor of Development Studies

ATAR: 80  Duration: 3 years  CRICOS Code: 073987C

Development Studies focuses on the challenge of inequality and the industry of promoting economic growth and human development in less developed regions of the world. The Bachelor of Development Studies comprises a multidisciplinary approach with the core courses in anthropology, political science, and sociology examining the policies, theories and practices of development agents and the response of development participants.

In this degree you will gain a critical understanding of theory and practice concerning the processes of development in the ‘developing world’, with the opportunity to study forms of development in specific regions of the world, such as Southeast Asia, East Asia, Latin America and the Pacific.

ANU is the leader in the field of Development Studies in Australia and is ranked 8th in the world in this field. It has built its reputation around research and undergraduate/postgraduate education and has established strong relationships with Australian and international aid and development organisations.

Major
Development Studies

Specialisation: Regional Studies in Development

Minors

Career opportunities
Graduates have opportunities to work in a broad range of sectors. Some of these include aid agencies, multi-national companies, non-government organisations, government departments and international bodies, such as the United Nations.

Bachelor of Languages

ATAR: 80  Duration: 3 years  CRICOS Code: 073988B

Monolingualism is curable.

There’s no reason to be tongue-tied in the 21st century. Whether you choose to study online or on campus, our classes are interactive, you’ll be taught by leading language and culture specialists, and you’ll have access to our state-of-the-art language learning facilities. Choose from the largest array of languages on offer at any Australian university, from French to Chinese, Persian to Korean.

¿qué quisiera hacer? Deutsch? Latinum? Nipponjin?

The ANU Bachelor of Languages prepares you to thrive in our increasingly multilingual and international age. Your language education experience is designed to engage you with the linguistic features of your chosen language or languages contextualised in terms of the culture and history of the regions in which it is spoken.

You can choose from 17 language majors: Ancient Greek, Arabic, Chinese (Mandarin), French, German, Hindi, Indonesian, Italian, Japanese, Korean, Latin, Persian, Sanskrit, Spanish, Thai, Urdu and Vietnamese. Elective courses are available in additional languages including Russian, Burmese, Javanese, Portuguese, Tetum and Turkish.

Exciting opportunities exist for you to immerse yourself in your chosen language and culture through study abroad. With our flexible program you can also extend other minor language subjects into a major.

So what are you waiting for? Allons nous!
Diploma of Languages

Apply direct to ANU College of Arts & Social Sciences

You can add a language to your studies by complementing any Bachelor degree with a Diploma of Languages. You’ll graduate with language proficiency and the qualification to prove it.

The Diploma of Languages prepares students for the increasingly multilingual and international life of the 21st century. You will be taken on a language learning journey which is designed to engage you with the written, oral and cultural aspects of your chosen language or languages.

You can choose to study a wide selection of languages, many of which are not available at any other university in Australia. The languages available are: Ancient Greek, Arabic, Chinese (Mandarin), Classical Chinese, French, German, Hindi, Indonesian, Italian, Japanese, Korean, Latin, Persian, Russian, Sanskrit, Spanish, Thai, Urdu and Vietnamese.

Key information:

- The Diploma is equivalent to a language major.
- You can study it at the same time as your Bachelor degree, or afterwards.
- You may only be able to undertake one or two courses towards this qualification each semester.

Note

You can only study the Diploma on a part-time basis. The Diploma must be studied alongside a current degree or, if you have a previous degree, as a ‘stand-alone’ program. If you have previous knowledge of a language, you may be able to complete an Advanced Minor in that language, and do another minor in an additional language to complete the Diploma.

Career opportunities

Graduates may find work in international relations, diplomacy, trade, national security and strategy, translation, language teaching, tourism, development and many other fields.

Bachelor of Music

You can turn your musical talent into a remarkable career. The ANU Bachelor of Music prepares you for a career as a modern music professional, and is designed to reflect music as it is understood and practiced in contemporary Australian society. All students receive a broad core training in music theory and aural skills, and an overview of the historical and social context of music with a focus on music since 1900. You will specialise in one of our four majors – performance; composition, arranging and sound design; music technology; or musicology – in one or more genres (classical, jazz, contemporary, popular, or world music).

Single degree students may choose two majors.

Applicants will be expected to have pre-existing musical knowledge such as a competency level equivalent to NSW Music 2 or Music Extension, or AMEB Grade 5 theory, or equivalent qualifications or experience. In addition, 5 bonus points are available to applicants who have passed AMEB Grade 8 or equivalent.

Audition requirements apply for the Music Performance courses, however entry to the degree itself is determined by the ATAR cut-off. For more information visit music.anu.edu.au/future-students/apply
POLITICS, PUBLIC POLICY AND INTERNATIONAL RELATIONS

Bachelor of Environmental Studies

ATAR: 80  Duration: 3 years  CRICOS Code: 074008B

Do you want understand the environment, how we can interact with it and learn about more sustainable ways of managing it? This is the degree to help you manage and care for our most precious resources. The ANU Bachelor of Environmental Studies is designed to give you the multidisciplinary perspectives, skills and knowledge you need to engage meaningfully with the complex problems facing societies and the environment.

Our degree offers a broad range of study options from natural ecological and earth system processes, to environmental management, resource use and policy, to cultural ecology and the history of environmental change, perception and philosophy. You will develop an understanding of the complex and often conflicting interrelationships between human societies and their environment, and of the available solutions to address the world’s most intractable environmental problems.

Bachelor of International Business

ATAR: 86  Duration: 3 years  CRICOS Code: 047472B

Your vision is global, not local. You have the potential to lead.

You aspire to travel, to work around the world in responsible leadership roles in business and management. You’re good at languages and keen to learn more. The Bachelor of International Business will take your strengths and vision as a foundation and help you build the knowledge and capabilities to fulfil your aspirations. It draws on many disciplines to analyse the principal issues and considerations in the growth and functioning of international business and organisations.

You’ll learn how leaders negotiate, resolve conflict, and manage across cultures in a global business world. You’ll get to understand in detail the business environment, and how management and marketing work, in Asia, Europe, the Middle East or Latin America. Finally, you’ll complement this knowledge with world-class language training.

Bachelor of International Relations

ATAR: 89  Duration: 3 years  CRICOS Code: 073992F

Can you see yourself jet-setting the globe with a career in trade, foreign affairs, journalism, international business or research?

ANU is ranked 8 in the world for Politics and International Relations (QS World University Rankings by Subject 2016). Our program will introduce you to International Relations, initially via the broad historical and intellectual framework which has framed the modern world since the 17th century. It will then concentrate on the 20th century, the age of World Wars and the Cold War, before addressing contemporary issues, the age of global political economy, global culture and communication, global environmental concerns and post-Cold war political conflict, including the War on Terror.

With our flexible program you can extend your chosen language subject into a major, and have the opportunity to go on exchange or an international/national internship through the Australian National Internships Program (ANIP).

Career opportunities

Graduates may find work in government, foreign affairs, journalism, policymaking, private business, tourism, trade and many other fields.

Bachelor of Political Science

ATAR: 90  Duration: 3 years  CRICOS Code: 086219C

New in 2016, the Bachelor of Political Science is the only dedicated Political Science degree in Australia. ANU has some of the world’s finest political scientists, is ranked 1st in Australia and 8th in the world (QS World University Rankings by Subject 2016), and was the only Australian university to receive a 5 (‘well above world standard’) in all Excellence in Research for Australia’s (ERA) reports. Located in the national capital, ANU is the only university with a right to place interns in Australian Parliament House.

The Bachelor of Political Science will give you the knowledge, theoretical understandings and practical skills that underpin a successful career that engages with politics. The comparative nature of courses means you will develop an understanding of different systems of government, using comparative methodology. You will examine political science theory, public opinion, political economy, government behaviour, systems, principles, and different methods and techniques of political science.

You will graduate with a degree that is globally recognised and attractive to employers, with well-developed skills in research, critical and conceptual thinking and problem solving. You’ll also have the opportunity to complete an internship, undertaking a research project for academic credit through the Australian National Internships Program (ANIP).

Career opportunities

Our graduates find employment in international trade and global sourcing, research analysis, international accounting, marketing, and in the import-export sector.

Program Structure

Refer to Programs and Courses for the listing of core courses to be studied as part of this degree: programsandcourses.anu.edu.au

Graduates may find work in politics, policy, education, international development, media, journalism, aid, advertising, and many other fields.
Bachelor of Politics, Philosophy and Economics

ATAR: 96  
Duration: 3 years  
CRICOS Code: 076183D

The Bachelor of Politics, Philosophy and Economics is an elite degree that combines the study of politics, philosophy and economics, and the manner in which they are increasingly being integrated to enhance our understanding and evaluation of individual and group behaviour. Graduates of this degree will be recognised for exceptional critical and conceptual thinking and problem solving skills. In politics, you will develop your understanding of the nature of institutional arrangements, the manner in which decisions are made and their effects on people throughout the world. The philosophy component of the degree will teach you to analyse issues and use ethical principles to evaluate human conduct and social institutions. By studying economics you will learn how consumers, firms, and governments make decisions and how these decisions determine the allocation of resources.

Our Integrative Seminar Series brings together the three disciplines to illuminate topics of pressing human concern. The degree has a strong international component linking with international relations and development studies and you may have the opportunity to engage with other leading international universities.

Program Structure
Refer to Programs and Courses for the listing of core courses to be studied as part of this degree: programsandcourses.anu.edu.au  Career opportunities.

Career opportunities
Graduates may find work in the private and public sectors including banking and finance, politics, journalism, international affairs, diplomatic services, academia and government.

Bachelor of Policy Studies

ATAR: 86  
Duration: 3 years  
CRICOS Code: 074004F

Are you seeking a dynamic career in politics, the public service, advocacy organisations, not-for-profit social and community services or private industry? The ANU Bachelor of Policy Studies equips you with a comprehensive understanding of Australian public policies and related international policies.

This well-regarded education experience includes the Applied Policy Project, in which you will be engaged in an intensive student-led investigation of a policy issue or controversy relevant to your interests. You may also have the opportunity to participate in an internship for academic credit through the Australian National Internships Program (ANIP).

Our program is designed to develop the skills and knowledge you need to gather and analyse a range of economic, demographic and social data, to evaluate public policies and programs, and to participate in policy design, advocacy and communication.

Program Structure
Refer to Programs and Courses for the listing of core courses to be studied as part of this degree: programsandcourses.anu.edu.au  Career opportunities.

Career opportunities
Graduates may find work in the private and public sectors including banking, finance, politics, journalism, international affairs, diplomatic services, national and international law firms, non-government and non-profit organisations, academia, government and many other fields.

Jessica Wat

Bachelor of Politics, Philosophy and Economics

Second-year student Jessica Wat wasn’t sure initially what she wanted to do straight out of high school. But she knew generally what she was interested in, and describes herself as a “law/humanities kid”.

Jessica learned about the Bachelor of Politics, Philosophy and Economics degree and contemplated the Oxford University course but ultimately applied to ANU. She said she felt that the quality of education the ANU offered would be “just as good”.

“I first heard about the Oxford PPE and then I found out that ANU offers it as well. And I thought, that is amazingly perfect because it’s in Australia and it’s in Canberra, which is really helpful because you’re in a massive political hub.”

She adds, “Choosing this degree was very much my own decision. And so was coming to ANU. When you’re in high school you feel a bit controlled, and what I wanted with my university education was to have new experiences, to really embrace being young and take control of my own life.”
Undergraduate Guide 2017

ANU College of Arts and Social Sciences, ANU College of Asia and the Pacific

Harriet Roberts
Bachelor of Asian Studies

“I was always interested in the law and, having studied Indonesian language throughout high school, I was looking for a way to combine these two interests. I came across the ANU Flexible Double Degree program in Year 12 and discovered that a double degree in Asian Studies and Law was the best way to pursue both of my passions.

A highlight of my CAP degree thus far has been undertaking a field course on the Thai-Myanmar border in 2015. This course centred around three main issues – human trafficking and transnational crime, education in Thailand and Myanmar, and the role of NGOs in the region. It was an eye-opening and truly rewarding experience, which allowed me to interact with a range of stakeholders - from government officials to victims of exploitation.

This course allowed me to combine my passions for law and the Asia Pacific through writing a research paper on human trafficking law in Thailand. I hope to intern in South East Asia at an NGO focused on human trafficking after a semester studying abroad in Indonesia.

Studying a CAP degree at ANU has provided me with vital skills for my future career. I’ve had the opportunity to study Indonesian and Thai language, and have vastly improved both my linguistic and cultural fluency. The range of overseas mobility programs that CAP offers such as field courses and exchange programs will also give me highly-regarded practical experience working and living in the Asia and the Pacific region.”

Regional Specialist Degrees

In today’s globalised world, demand for regional expertise is greater than ever. With our specialised regional degrees, you will immerse yourself in the politics, history, culture, language, economics, and religion of one of the world’s key regions and graduate as an expert in your field.

Bachelor of Asian Studies

ATAR: 80  
Duration: 3 years  
CRICOS Code: 082710B

Australia is increasingly looking to Asia – strategically, economically, politically, and culturally – and all eyes are on the graduates of tomorrow to take us there. Will you be ready to lead us into the Asian century? With a Bachelor of Asian Studies you will master an Asian language, acquire in-depth contextual knowledge of the region, and graduate with the kind of Asian literacy that gets you noticed by employers.

Career opportunities

Our graduates find employment in marketing, international trade, banking and finance, teaching, tourism, translation, as well as all areas of federal, state and overseas government departments with policy and operational interests in Asia. Who knows where you will be after you graduate ... a Japan specialist for the World Bank, a policy officer at the Department of Foreign Affairs and Trade (DFAT), or a human rights lawyer for an NGO in Indonesia? The possibilities are endless.

Undergraduate Guide 2017  33
Bachelor of European Studies

ATAR: 80  
Duration: 3 years  
CRICOS Code: 073994D

Can you see yourself bustling to work through the streets of Paris, Glasgow, Munich, London, Madrid or Rome? If you are interested in the social, political and cultural structure of contemporary Europe, this program is for you.

The Bachelor of European Studies focuses on the foundations of modern Europe, bearing in mind its long history and how this has shaped contemporary European societies. It also considers the innovative aspects of recent developments, particularly the possibilities for cooperation and unity as well as the tensions between diverse traditions.

You can also study a European language and travel to Europe for ‘in-country’ study at a partner institution. With our flexible program you can extend your chosen language subject into a major.

Majors
- Contemporary Europe, European History

Minors
- Advanced French Studies, Advanced German Studies, Advanced Italian Studies, Advanced Spanish Studies, French Language and Culture, German Language and Culture, Italian Language and Culture, Russian, Spanish

Career opportunities
- Career opportunities: Graduates may find work in diplomacy, trade, defence, translation, journalism, language analysis, language teaching, tourism, trade and many other fields.

Bachelor of Latin American Studies

ATAR: 80  
Duration: 3 years  
CRICOS Code: 074005E

From the secret language of tango dancers to the intricacies of political change in Cuba, this degree will fly you to Latin America (quite literally, and probably in your fifth semester of study). Latin America’s history is a collision of culture and politics, wealth and poverty. In this course you will study a history of corruption, colonisation and celebration.

Off the back of its traumatic history, Latin America is growing economically at breakneck speed and in this course you will move along with it. You will critically analyse aspects of society, politics, culture, history, economics and development. You will also learn the Spanish language and undertake one semester of study abroad in a Latin American country. For aspiring comerciantes and cultural buffs alike, our degree immerses you in a region of extremes.

Major
- Latin American Studies

Minor
- Spanish

Career opportunities
- Career opportunities: Graduates may find work in policy development, government, private business, tourism, trade, foreign affairs and may other fields.

Bachelor of Middle Eastern & Central Asian Studies

ATAR: 80  
Duration: 3 years  
CRICOS Code: 074006D

Immerse yourself in a remarkable and complex part of the world. The history, society, politics and culture of the Middle East and Central Asia influence many parts of the world, including Australia. The Middle Eastern and Central Asian regions of the world are rich in history, geographical wonders, political turmoil, and socio-cultural influence. They are areas of constant domestic and international interest as events often unfold which have global relevance and significance.

This program will take you through the topics, debates and developments in the Middle East or Central Asia. You will study the socio-cultural, political, historical and economic structures of these regions and develop a comprehensive knowledge of their relationship to global sociocultural, political and economic trends. To fully engage with the history and culture of the regions, you can also study a Middle Eastern or Central Asian language.

Majors
- You will complete the Middle Eastern and Central Asian Studies major, and one of the following language majors: Arabic or Persian.

Minors
- Alternatively you can elect to study two language minors from the following list: Arabic, Persian and Russian instead of a full language major.

Career opportunities
- Career opportunities: Graduates may find work in policy development, foreign affairs, government, private business, tourism, trade, journalism and many other fields.

Bachelor of Pacific Studies

ATAR: 80  
Duration: 3 years  
CRICOS Code: 075274J

Did you know the Pacific is the largest geographic region on the planet and hosts 20 per cent of the world’s languages? As Australia’s engagement with the Pacific increases, so too does the need for graduates with Pacific expertise and ANU hosts the largest concentration of Pacific experts in the Southern Hemisphere.

Australia’s understanding of Oceania is more important than ever thanks to a new, revitalised engagement with the region and an increasing number of Pacific Islanders settling in Australia.

The Bachelor of Pacific Studies will provide you with a deep understanding of the diversity, history and contemporary issues of Oceania, so you can take a leading role in Pacific policy and development.

You will also have the opportunity to engage in internship and immersion programs in Oceania, boosting your language skills and expertise in the region.

Career opportunities
- Graduates of the Bachelor of Pacific Studies include politicians, lawyers, activists, journalists, scholars, writers, researchers, climate experts and policy makers.

Minors
- Alternatively you can elect to study two language minors from the following list: Arabic, Persian and Russian instead of a full language major.

Career opportunities
- Career opportunities: Graduates may find work in policy development, foreign affairs, government, private business, tourism, trade, journalism and many other fields.

DEGREES FOR HIGH ACHIEVERS

From day one, PhB students work with an academic advisor to craft a program structure that allows focused, in-depth research on the topics they’re passionate about.

Bachelor of Philosophy (Honours) – Arts and Social Sciences

<table>
<thead>
<tr>
<th>ATAR: 99</th>
<th>Duration: 4 years</th>
<th>CRICOS Code: 048427K</th>
</tr>
</thead>
</table>

The Bachelor of Philosophy (Honours) (PhB) is an exciting research-focused degree at ANU. It is an integrated program leading to an Honours award. It is designed for intellectually-ambitious students who aspire to study at the highest level. Every student receives intensive individual attention from an academic advisor.

The PhB is flexible in its structure with your program determined each year in collaboration with your academic advisor. One quarter of your studies in the first three years will consist of individually-tailored advanced studies courses specifically designed to provide you with a strong base in research. In these courses, you might do a reading course or literature review with an academic. In the fourth year you will undertake an Honours year centred around one Arts discipline.

A strict quota will apply to enrolments in this degree program. A wide range of scholarships is available to potential applicants. If you choose to undertake study abroad, you might be eligible to apply for a travel grant of up to $1,500.

Majors

Career opportunities
Graduates may find work in publishing, policy, education, international development, politics, media, research fields, journalism, aid, advertising and many other fields.

Bachelor of Philosophy (Honours) – Asia and the Pacific

<table>
<thead>
<tr>
<th>ATAR: 99</th>
<th>Duration: 4 years</th>
<th>CRICOS Code: 088980J</th>
</tr>
</thead>
</table>

The Bachelor of Philosophy (Honours) or PhB is an innovative, research-focused undergraduate degree designed for intellectually curious students who want to explore their interests beyond the classroom. It’s the only program of its kind where disciplinary knowledge is enriched by a deep regional understanding of Asia and the Pacific.

As a member of our interdisciplinary research community you will have the opportunity to explore your interests through a diverse range of disciplines including: history, international relations, gender, culture, strategic studies, literature, politics, linguistics, anthropology, law and regulation, archaeology and economics.

You will receive one-on-one mentoring from a range of world-leading researchers at the forefront of their fields and develop your capacity for independent research and critical thinking in an academically rigorous learning environment.

The flexible nature of our PhB allows you and your academic mentors to design the program to suit your interests and includes advanced courses tailored to provide you with the high-level academic skills you need to take the first step in your research career.

During your final year of study you will be encouraged to undertake fieldwork abroad as you embark on a year-long independent research project under the guidance of an academic supervisor. With the PhB you can choose your own adventure while gaining exceptional preparation in your chosen field and special opportunities to pursue the study of Asia and the Pacific at the highest level.

Bachelor of Philosophy (Honours)/B. Arts (Honours) (NUS)

ATAR: 99  Duration: 4 years  CRICOS Code: 058580G

This joint program will allow you to study at two world-renowned universities. You can choose from up to four available majors in this highly selective program which provides students with ambitious and intellectual challenges. These include English, history, political science, or philosophy. This integrated program is offered in partnership with The Australian National University and the National University of Singapore (NUS) and will lead to an Honours award upon completion. You will have significant flexibility and can tailor your program of study in close consultation with your individual program coordinator.

Career opportunities
Graduates may find work in publishing, policy, education, international development, politics, media, research fields, journalism, aid, advertising and many other fields.

Bachelor of Politics, Philosophy and Economics

ATAR: 96  Duration: 3 years  CRICOS Code: 076183D

The Bachelor of Politics, Philosophy and Economics is an elite degree that combines the study of politics, philosophy and economics, and the manner in which they are increasingly being integrated to enhance our understanding and evaluation of individual and group behaviour. Graduates of this degree will be recognised for exceptional critical and conceptual thinking and problem solving skills. In politics, you will develop your understanding of the nature of institutional arrangements, the manner in which decisions are made and their effects on people throughout the world. The philosophy component of the degree will teach you to analyse issues and use ethical principles to evaluate human conduct and social challenges. These include English, history, political science, or philosophy. This integrated program is offered in partnership with The Australian National University and the National University of Singapore (NUS) and will lead to an Honours award upon completion. You will have significant flexibility and can tailor your program of study in close consultation with your individual program coordinator.

Program Structure
Refer to Programs and Courses for the listing of core courses to be studied as part of this degree: programsandcourses.anu.edu.au Career opportunities.

Career opportunities
Graduates may find work in the private and public sectors including banking and finance, politics, journalism, international affairs, diplomatic services, academia and government.

AJ America

Bachelor of Philosophy (Hons)/Diploma of Languages

The Bachelor of Philosophy is by no means your average degree. As third-year PhilB student AJ America can attest, you can exercise a high level of autonomy within it and work closely with lecturers. In Year 12, AJ took the HSC History Extension course, which she describes as a very self-directed research project.

“I really enjoyed the process of research and the process of letting a project take shape over a few months rather than just having a set essay question that you respond to in the three weeks that you have to write the paper,” AJ says. “The opportunity to keep doing that regularly was really enticing.”

For her first research project at ANU, AJ worked alongside an academic whose books she had admired – historian Angela Wooliscroft.

“It was my second year of university and I was sitting in her office getting to discuss my work every week and chat to her about history. Eighteen months earlier, I’d been reading her books when I was in high school,” AJ enthuses.

“I’ve also been privileged to work with Frank Bongiorno this semester and Alex Cook over a couple of semesters. “

AJ is currently working on a research project about Australian Holocaust education in Australia and another on Jewry in the Weimar republic. While her projects are solo endeavours, she has felt far from isolated from her peers. She spoke about first-year seminar, which she did with her fellow PhilB students.

“Often, class discussions would kind of continue in the hallway after class until it was moved to the bar slowly,” she smiles.

“We ended up with a really great community of PhilB students.”

“We still have coffee together and talk about our projects. Having those friends from first year seminar has been really valuable.”
Oliver Friedmann

Bachelor of Philosophy (Hons) – Asian Studies

I have changed my degree four times and been to two different universities. But this journey has given me a fantastic appreciation for what one should look for in a degree.

The PhB has become one of the most profound and formative educational experiences I have ever engaged with. The PhB allows me to actively craft my educational experience, which is of particular importance to me. I have been able to choose subjects freely and engage with a number of different academic communities. I have developed fantastic relationships with academics from all over the world and their mentorship has been invaluable. Most of the subjects I have undertaken involve significant independence. My projects have ranged from developing a youth media platform that tackles digital disruption with a team who currently runs one of the largest academic Southeast Asian-focused blogs in the world, to writing a long form essay on New Age spirituality and indigenous appropriation with a culture and literature specialist who’s current research focuses on yoga. I cannot underestimate how important this mentorship has been. The staff at ANU are progressive, inspiring and always seem to have time for young students among their very busy schedules.

I made my way into the Asian Studies stream from a politics and economics program because I wanted to engage specifically with area studies of some kind. It is great to learn political, social and economic theory, but it is even better if you can apply that knowledge to an area of the world that is becoming more and more important to us as Australians. What I found, however, was that Asian Studies at ANU offers so much more than just applicable knowledge. The Asian studies classrooms are dynamic and each course is nuanced. I have been part of a course that developed an Asian-focused student publication called Monsoon. I have studied Buddhist Philosophy. I have taken courses in both Thailand and Burma, and am looking forward to engaging with many more overseas and alternative study environments over the next few years.

The PhB has given me opportunities that I would not have received anywhere else. I am looking forward to the next few years, which I’m sure will contain more overseas experience, more language learning and more engagement with digital disruption in Asia and the wider world.”

HOW TO APPLY

1. Choose your degree

ANU has hundreds of degree options to choose from, and we encourage our students to tailor a program that suits the career they have in mind – what interests and enthuses them. Explore this guide, the ANU website or meet with us throughout the year to find out more about programs that are of interest to you.

2. Make sure you meet the requirements

For most of our programs we will consider all academic qualifications when assessing your application. This could be your ATAR, your IB, your A-levels, your equivalent final year school grades or your previous tertiary study. For details visit ANU Programs and Courses on programsandcourses.anu.edu.au.

3. Apply

The way you apply will depend on whether you are a domestic (onshore) student or an international (offshore) student.

Domestic students apply through the Universities Admission Centre (UAC) online: uac.edu.au/undergraduate.

UAC applications open in early August. You should aim to get your application in by the last Friday in September to avoid late fees. You can change your preferences before each offer round.

International students apply directly to ANU, via one of our authorised agents or through UAC International: uac.edu.au/international . For more details and a list of our agents go to anu.edu.au/study/information-for/international-students

4. Accept your offer & enrol

Once you receive your offer, you can accept it online at anu.edu.au/study/accept. Acceptances for Semester 1 2017 close for international students on 15 January 2017 and for Domestic students on 5 February 2017. These dates are subject to change so please check the University Calendar for further information: anu.edu.au/directories/university-calendar

After you have accepted your offer, you’ll receive enrolment instructions to help you decide on and enrol in your first courses. (You’ll receive these up to 24 hours after you accept your offer.)

Important dates

International onshore student acceptance deadline
> 31 January 2017

Close of all applications through UAC
> 31 January 2017

Semester 1 begins
> 20 February 2017
**Honours**
If you've done well in your Bachelor degree, you can consider adding an Honours year. This extra year of full-time study includes coursework, seminars and a research thesis focusing on one of your majors. To be eligible for Honours, you must have achieved a weighted mark of at least 70 per cent, calculated from 36 units of courses in your cognate major with the highest marks.

An Honours degree with a grade of at least 2nd class (2A) is the most direct pathway into a Doctor of Philosophy (PhD), and will help you get into other graduate degrees such as Masters programs in the future.

The structure of Honours in each area varies but in all programs a designated weighting is allocated to both coursework and research thesis components. With some exceptions – notably in practice-based areas – courses commonly involve 24 units of advanced level coursework courses and a 50% (18 – 20,000 words) or above weighted thesis.

Honours programs are comprised of 48 units and are normally taken over a two-semester period. With approval, Honours may be taken part time over four semesters.

**Find out more**
ANU College of Arts & Social Sciences programs: cass.anu.edu.au/study-with-us/honours
ANU College of Asia and the Pacific programs: asiapacific.anu.edu.au/students/honours

**Master**
A Master degree builds on your knowledge developed through undergraduate and Honours degrees or Graduate Certificates, as well as relevant work experience. Master degrees are usually completed over two years full-time.

Both Colleges offer a wide range of graduate coursework degrees, which you might like to start thinking about for after your Bachelors degree.

ANU College of Arts & Social Sciences programs: cass.anu.edu.au/study-with-us/graduate/degrees
ANU College of Asia and the Pacific programs: asiapacific.anu.edu.au/students/gradcourse

**Flexible Double Master**
The Flexible Double Master Degree (FDM) provides an enormous number of options to ambitious postgraduate students. It allows you to combine any two degrees available in the FDM program (so long as you meet the entry requirements for each). By cross counting electives you can complete two degrees in one year less than you would complete the degrees separately.

For students eligible for credit for previous degrees or who have undertaken work experience, the double degree may require as little as two years to complete.

**You can combine any two of the following degrees as part of the FDM program:**
- Master of Anthropology
- Master of Applied Anthropology and Participatory Development
- Master of Archaeological Science
- Master of Art History and Curatorial Studies
- Master of Biological Anthropology
- Master of Classical Studies
- Master of Criminology
- Master of Culture, Health, and Medicine
- Master of Digital Arts
- Master of Digital Humanities and Public Culture
- Master of General and Applied Linguistics
- Master of Globalisation
- Master of History
- Master of Islam in the Modern World
- Master of Middle Eastern and Central Asian Studies
- Master of Music
- Master of Social Research
- Master of Visual Arts

---

**Coursework Progression Guidelines**
Not sure where to begin? Refer to the below progression guidelines to determine what program is right given your prior level of study and previous qualifications.

---

Students with an Honours degree may receive up to 48 units specified or unspecified credit towards their Master program, if approved by the Program Convenor. Students will be given 24 units of credit for a cognate Bachelor program or Graduate Certificate. *This 72 units must include 12 units of ‘research training’ + 12 units of ‘research project work’.

Students with an Honours degree may receive up to 48 units specified or unspecified credit towards their Master programs, if approved by the Program Convenor. Students will be given 24 units of credit for a cognate Bachelor program or Graduate Certificate. This 72 units must include 12 units of research training + 12 units of research project work. Please refer to programsandcourses.anu.edu.au for the most up to date Master information.
MOVING TO CANBERRA

Enjoy your independence
Many students come to ANU from other states and other countries. They come because of the University’s reputation, but also to gain a sense of freedom and learn about themselves in a new environment.
In Canberra, you’ll learn about yourself in ways that you wouldn’t get if you studied in your home city.

Take the stress out of living away from home
At ANU, we’ve made living away from home easy for you. We guarantee a bed on campus to all of our first-year students moving from outside of the ACT or Australia. You might even qualify for a relocation grant to help you move.
For more details visit: rcc.anu.edu.au/guarantee.php
For other students, ANU will assist in finding you a place to live plus if you choose a catered option we’ll do the cooking for you.
We have fantastic facilities including study and meeting spaces, movie rooms, soundproof music practice rooms, and in some cases a rooftop garden and free secure bike storage (don’t forget so many of Canberra’s most interesting sights and institutions are within cycling distance of the campus).

Get the Canberra advantage
If you’re interested in languages, working overseas, politics, internships (and more) – Canberra is the place to be!
You’ll be within easy reach (sometimes walking distance) of major Australian cultural institutions, along with their archives for teaching, learning and research. Take for example the National Gallery of Australia – the ANU School of Art teaches there.
In addition, you will have access to major national institutions including Australian Parliament House, national centres of research, international organisations and over 80 diplomatic missions.

Live in a great student city
Canberra has been named among the top 20 cities for students in the world by the 2016 QS Best Student Cities report.
The main campus (where the Colleges are located) is situated on 145 hectares of beautifully maintained parklands right in the Canberra city centre. There are more than 5,000 beds on campus (and more to come very soon), making it easy to join this welcoming community of students right in the middle of Australia’s capital city.
